Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Description of Business

Alphaland Corporation (ALPHA or Parent Company) is a holding company incorporated and registered with the Philippine Securities and Exchange Commission ("SEC") on November 19, 1990. The principal business of ALPHA and its subsidiaries (collectively referred to as the "Group") is real property development.

The registered office address of ALPHA is Alphaland Makati Place, 7232 Ayala Ave. ext. cor. Malugay Street, Makati City.

Business Development

On November 19, 1990, the Company was incorporated as Agro Plastics, Inc. under SEC No. 18385 with Pioneer Ventures, Inc. as the controlling shareholder. Until 1994, the Company's sole business was to supply the requirements of the Lapanday Group's banana plantations.

Sometime in March 1995, the Company was sold to Macondray & Co., Inc. ("MCI") and was subsequently renamed Macondray Plastics, Inc. ("MPI"). In 1997, the Company embarked on a program to reduce its total dependence on the banana industry by further expanding its customer base to commercial/industrial accounts. In November 2000, the Company braved the sluggish stock market and became the first Davao-based, Davao-oriented company to list in the Philippine Stock Exchange, Inc. ("PSE" or the "Exchange"). The proceeds of the initial public offering were used to expand the Company's production capacity and capabilities. In September 2009, the Company decided to spin off the operations and maintenance of its plastics manufacturing interest to a separate juridical entity. Thus, Macondray Plastics Products, Inc. ("MPPI") was then incorporated and registered with the SEC on September 25, 2009 and became a wholly owned subsidiary of the Company. Immediately thereafter, a deed of conveyance was executed on October 13, 2009 where the Company shall transfer all of its assets and liabilities relating to the plastics manufacturing interest to MPPI with effect upon the approval by the SEC of MPPI's application for increase in authorized capital stock (the "Assignment"). Accordingly, MPPI assumed the management of the Company's plastic products manufacturing operations and absorbed all the employees of the Company who were all connected to the plastics manufacturing business at that time.

On October 1, 2009, a Share Purchase Agreement (the "SPA") was executed between RVO Capital Ventures Corporation ("RVO Capital") and MCI. The transaction involves the acquisition by RVO Capital of MCI's 99,444,000 shares in the Company which represents MCI's entire interest in the Company. Since MCI's interest represents approximately 66% of the Company's outstanding capital stock, the acquisition thereof triggered the application of the mandatory tender offer rule of the Securities Regulation Code ("SRC"). After the conduct of the tender offer, RVO Capital acquired a total of 142,656,748 shares representing 95% of the Company's then issued and outstanding capital stock.

On November 18, 2009, the Company and all the stockholders of Alphaland Development, Inc. ("ADI") entered into a Share Swap Agreement ("SSA") for a share-for-share swap of all of ADI's issued and outstanding shares (as well as existing shareholders' advances/deposits for future stock subscriptions) in exchange for new shares to be issued by ALPHA. Each ADI share was exchanged for approximately 5.08 ALPHA shares, or a total of 1,269,734,041 shares of ALPHA. After the share-for-share swap, ADI became a wholly owned subsidiary of ALPHA thereby allowing the diversification into the property development sector. In view of the foregoing, the Company applied for the amendment of its Articles of Incorporation involving the (a) change in corporate name from "Macondray Plastics, Inc." to "Alphaland Corporation", (b) change in primary purpose from plastics manufacturing to that of a holding company, (c) change in principal place of business from Davao City to Makati City, and (d) increase in its authorized capital stock from P400.0 million to P5.0 billion, among others. These amendments were approved by the SEC on April 7, 2010.

On December 23, 2010, ALPHA signed a Memorandum of Understanding ("MOU") with Macondray Philippines Co., Inc. ("MPCI"), where the latter is offering to buy ALPHA's entire interest in MPPI upon completion of the Assignment and which ALPHA accepted for a reasonable consideration to be determined nearer to the Assignment.

On April 29, 2011, the SEC approved the increase in authorized capital stock of MPPI that completed the Assignment and total spinoff of MPPI. It paved the way for the Company's eventual sale of MPPI to MPCI. A Deed of Absolute Sale was executed on October 28, 2011 for a consideration of P254.0 million.

For the past three years, the Company does not have any bankruptcy, receivership or similar proceedings.

The Company has likewise not undergone any material reclassification, merger, consolidation, or purchase or sale of a significant amount of assets not in the ordinary course of business for the past three years.

Plan of Operation

The Group generates funds primarily from sale of Baguio Mountain Lodges and Balesin Private Villas; from leasing operations of Alphaland Makati Place Corporate Tower and Mall; and from operation of serviced residences of The Alpha Suites that commenced during the first half of the year 2018. The leasing operations and The Alpha Suites provide recurring cash flows for the Group.

The Group also generates funds through secondary sale of membership shares of the completed Club projects, namely, Alphaland Balesin Island Club and The City Club at Alphaland Makati Place.

ALPHALAND BAGUIO MOUNTAIN LODGES

The Alphaland Baguio Mountain Lodges is a master-planned development of 300 lodge style log homes, situated on an 86.7-hectare property. The development is just 9 kilometers north of Baguio City on Ambuklao Road, which is now fully paved and is only a 15-minute drive from Baguio City proper. The development also offers two helipads

The site enjoys lush Benguet pine forest and totally pollution-free mountain air. In addition to about 10,000 Benguet pine trees on the property (some over a hundred years old), we maintain a nursery for another 50,000 pine trees, all of which will be eventually planted all over the property, making it one of the most lush pine forests in all of Benguet.

There are 7 designs and floor plans to choose from, and the homes are sited to maximize the views of the surrounding pine-forested mountains. The free-standing, individual log homes range in 6 bedrooms, A-frame lodges and quadruplexes that house the 3-bedroom homes; all are fully furnished. Each home is constructed from western cedar or pine logs imported from Scandinavia. The entire property is secured by an 8-foot concrete perimeter fence, with 12 security outposts.

The master plan was completed by EcoPlan of Florida in the U.S., the same master planner for Balesin Island. The lodges are sold individually as horizontal condominiums, where the land is proportionately owned by all 300 homeowners. This allows for the optimization of the locations and views of all of the home sites.

Each quadruplex or cluster of 5 to 8 individual homes has its own water cistern that collects rainwater from the roof of each building. Landscaping is provided and maintained by Alphaland, to the usual superior Alphaland standard.

On the main Ambuklao Road part of the property, we will construct a commercial center consisting of several pine log units, which we will provide rent-free to the best restaurants and popular shops in Baguio, as well as a laundromat for the convenience of our homeowners.

The mini sports center has also been completed, which is now being used for wedding receptions in addition to sports and recreation. In addition, there is a 2 km hiking trail. There is also a horseback riding trail with ponies from Wright Park.

Alphaland Makati Place is designed from the ground up with state-of-the-art building management, automation, and security, as well as energy-efficient mechanical, electrical, and sanitary systems. BALESIN INTERNATIONAL GATEWAY

Alphaland has acquired 732 hectares on Patnanungan Island, which is only 21 nautical miles north of Balesin. Between Balesin and Patnanungan it takes only ten minutes by helicopter, five minutes by our Cessnas, and half an hour by a fast ferry.

The Company plans to build a full international airport facility with a runway of 2,500 meters, which will accommodate even wide-body jets, although it is targeting only the Airbus 320s that fly around the region.

The Company has always envisioned making Balesin directly accessible to international flights. With the establishment of the Balesin Gateway International Airport, international members and guests will be able to bypass the congestion of NAIA in Manila and fly directly to Balesin from Tokyo, Seoul, Taipei, Hong Kong, Bangkok, Singapore, and Jakarta, and even Sydney, all cities that will be the target of the Company's aggressive international marketing of Balesin Island Club.

Because the island has fresh ground water, the Company also plans to build an 18-hole championship golf course and 5 luxury hotels, as well as 1,834 beachfront and golf course homes. So that the Company does not end up with a mish-mash of designs and are able to preserve the pristine character of the land, the Company will design and build each individual home. The homes can be directly owned by individuals and companies who would like to acquire their own beach houses. The Company has partnered with EcoPlan (the same master planner of Balesin Island) to finalize the master plan for the island, and continue to work on obtaining the necessary permits and regulatory approvals.

ALPHALAND AVIATION

Alphaland Aviation's fleet of aircraft includes two 68-seater ATR 72-500s, two 9-seater Cessna 208B Grand Caravans, and a 12-seater AW139 Augusta Helicopter as well as a 5-passenger Eurocopter EC-130B4 helicopter.

ALPHALAND CLARK HANGAR AND LOUNGE

Alphaland's private hangar and lounge at Clark International Airport in Pampanga has allowed us to offer additional and more convenient flights for Balesin members who live in the northern part of Metro Manila and in Central Luzon. In addition to our usual service from NAIA, we now schedule flights to and from Clark to avoid the air traffic and runway congestion at NAIA.

The Group is looking forward to a strong operating performance in 2022 despite of the adverse effects of the covid-19 pandemic in its operations as well as in worldwide economy. The Alphaland Corporate Tower is 100% leased at a record amount per square meter, while The Alpha Suites, in only one and a half years has been consistently rated as the no. 1 hotel in Metro Manila up to this day by TripAdvisor. Both operations are strongly contributing to the company's cash flows.

Financial Risk Management Objectives and Policies

The Group's principal financial instruments comprise of cash and cash equivalents, trade and other receivables, advances to related parties, loans payable and long-term debt. The main purpose of these financial instruments is to provide funds for the Group's operations. The Group has various financial

instruments such as trade and other receivables, trade and other payables, customers' deposits and advances to and from related parties, which arise directly from its operations.

The BOD has overall responsibility for the establishment and oversight of the Group's risk management framework. The Group's risk management policies are established to identify and manage the Group's exposure to financial risks, to set appropriate transaction limits and controls, and to monitor and assess risks and compliance to internal control policies. Risk management policies and structure are reviewed regularly to reflect changes in market conditions and the Group's activities.

The Group has exposure to credit risk, interest rate risk and liquidity risk from the use of its financial instruments. The Group's exposure to foreign currency risk is minimal as it does not normally enter into transactions in currencies other than its functional currency. The BOD reviews and approves the policies for managing each of these risks.

Credit Risk

The Group trades only with recognized and creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis with the result that the Group exposure to bad debts is not significant. For transactions that are not denominated in the functional currency of the Parent Company, the Group does not offer credit terms without the specific approval of the Chief Finance Officer.

With respect to credit risk arising from the other financial assets, the Group's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments.

Since the Group trades with recognized third parties and related parties, there is no requirement for collateral. There are no other concentrations of credit risk within the Group.

Interest Rate Risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair values of financial instruments. The Group's exposure to interest rate risk relates primarily to its financial instruments with floating interest and/or fixed interest rates. Fixed rate financial instruments are subject to fair value interest rate risk while floating rate financial instruments are subject to cash flow interest rate risk. Re-pricing of floating rate financial instruments is done every three to six months. Interest on fixed rate financial instruments is fixed until maturity of the instrument.

The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long-term debt subject to floating interest rates. The other financial instruments of the Group are noninterest-bearing and, therefore, not subject to interest rate risk.

Liquidity Risk

Liquidity risk is the risk that the Group will not be able to settle or meet its obligations on time or at a reasonable price. Management is responsible for liquidity, funding as well as settlement management. In addition, management oversees liquidity and funding risks, and related processes and policies. The Group manages its liquidity risk based on business needs, tax, capital or regulatory considerations, if applicable, through numerous sources of finance in order to maintain flexibility.

The Group also maintains a balance between continuity of funding and flexibility. The policy of the Group is to first exhaust lines available from affiliated companies before local bank lines are availed of. The Group seeks to manage its liquid funds through cash planning on a weekly basis. The Group uses historical figures and experiences and forecasts from its collections and disbursements. As part of its liquidity risk management, the Group regularly evaluates its projected and actual cash flows. It also continuously assesses conditions in the financial markets for opportunities to pursue fund raising activities. Also, the Group only places funds in the money market, which are exceeding the Group requirements. Placements are strictly made based on cash planning assumptions and covers only a short period of time.
